OLIVAS

Asher-

Hey - I want to take a moment to thank you for your friendship, it's so wonderful and it means the world to me. Look - I don't want to cause any problems between anyone, I'm sorry for no reason. I don't know ~~what~~ the history between you and Sarah... well I do sort of... but that's not the point, whatever happened between you two is none of my damn business, but I don't want to get in the middle of your feud's. I have no other choice but to move in with Sarah, it's the best idea and option for me. I don't want you guys fighting over my friendship either. I'm with all your guys' friend - And me and you are best friends! Haha

9/16/14 for

OLIVAS

DAD

9/11/05

Yo Yo Yo - whats the damn deal? Well
I'm just getting ready for work and decided
to write you. I was going through some pictures
last night and thought I would send them
to you, because I know you don't have many
of me - and I want you to have these to keep
with you, so if your having a shitty day just
pull them out and all your worries will be
gone, so smile & choose!! I also included a
letter to Shelby, so your probably wondering
why I mailed it to the shop and not the
house - because I knew you would receive them
at the shop 100% - You never know what she
would do - burn eat, throw em away just like
everything else. Who knows - Well I love you
and miss you lots

9/16/14

for OLIVAS

Thomas -

6-25-10

So much to say and not enough words. You need to realize and accept the fact that you are the father of my child. We are not going anywhere, the fact that you don't accept him hurts so much and it's a bunch of b.s. that you're acting this way. He is your son and he doesn't have to suffer for your mistakes. You promised to help. If we didn't go to court, and so far you haven't done shit. I know losing your job is tough, but even when you were working you still didn't help your son. He is 4 months old and you've seen him 3 times, only because of other reasons. But the 1st time you saw him - you just watched him - and the whole time you had this look - like how does mine - and then you finally held him and you fell for him - I saw it - you wouldn't put him down, you talked to him. You told him about his big sister, and you examined every part of his body to make sure he was perfect and he is. In every way possible.

But then you turn around and say you
 don't want him. I just don't understand.
 I ~~love~~ ^{love} you and every day when I look
 at him I ~~love~~ ^{love} you even more!! How can
 you love one child and not the other?? Its
 just me vs. you, one day you're telling me
 what you want to be with me and the
 next its you want nothing to do with me.
 I've cried too many times to keep count.
 It really hurts when you say that if I
 didn't love Asher that we could still be
 together. That should make you want to
 be with me more. I have fighting with
 you, I honestly do. All I want to do is
 to make you happy. I would do anything
 for us to be together. All the fighting
 would stop. Even if you would just love
 him and be a father. I'm going to fight
 for what's right you don't get to just
 walk away just because I didn't have an
 abortion. It doesn't work that way.
 Its one thing if you were paying
 child support but you're not doing that.

And then you wonder what I'm a complete
 fucking bitch to you. Look at what
 your doing to me. I was fine before
 I met you. I want to move up next
 to you everyday - but I'm not good enough
 for you.

Kelley-

Whats up woman?! Whats been going on
in your neck of the woods?! I know its
been a long minute since we've last talked.
Now- so much has happened since then.
Well, I dont even know where to begin.
I do miss you everyday, seriously though
I've needed to talk to you so many times
but couldn't.

Hello love!! I know it's a long time since you've heard from me. I've been meaning to call you but I always get side tracked. So how has everything been going for you? I wish I could tell you that I'm doing great, but I can't lie to you. But don't worry about me, I'll be fine, it's just a little bump in the road. I miss you so much I just wanted you to know that I think about you all the time. Remember when I was a little girl, and I told you that I would be care of you? Well I'm still going to keep my promise. I hate being so far away from everyone. Sometimes I feel left out. I'm supposed to be the perfect person who has no limits. in life. Yet I'm really the rebellious, always in trouble, disappointing grand-daughter. My life hasn't exactly been

Yo-homes-whatcha doing? Well I know what you're doing. I'm just chillin here in Banksfield with your crazy ass. Now, I can't believe it's been 3 years since I left Cali. Seems just like yesterday. I'm writing you this letter to tell you some things that I didn't have a chance to tell you in person. I really love you with all I have, and I always will, ever since we were kids. I looked up to you and adored you. I still do. I still day. I told you about "Dad" and how he raped me. I haven't said a word about that day to NOBODY!! I was scared, especially to tell you, becuze I didn't know how you would react. All I want, is to look him eye to eye and let him know life's a bitch and that he fucked with the wrong person. Damn- if you only knew half of the shit I did to me, you would flip. All I want is a few words with him and end the fear in his eyes. Two wrongs don't make a right, but it would make me feel better. Nothing can take back time

959-01901 INS-0385.JPG (1M 700K)

and erase what was done

Yo-Yo-Yo-Whats up homas?! not much
here- just chillin at Debbie's with Jahno
and Marflyn- just missing you. Dad- I just
wanted to let you know that I love you
with all my heart and soul. I'm a daddy's
girl all the way. You mean everything to me.
I would go crazy without you here. I know
you're not happy, especially with Karen. I
can see it in your eyes. I've known that
for a long long time know. Why stay in
a marriage that's miserable with no love?!
Why do you put yourself through all the
bullshit she brings you?! I don't like her
dad, and actually I use the word 'HATE'
with her. She's handled me like total dog
shit my whole life, and she's done some
cruel and fucked up shit to me that
I won't ever forget. I'm grown up now,
she can't get to me no more cuz I won't
let her. She's nothing to me, absolutely
nothing. Dad I love her so much that

I know you're hurting deep down inside
 I can see the pain thru your eyes-
 even though you try to hide-
 I'm here to comfort you thru darkest
 times- just by sitting here and watching
 you cry-
 Tears of sorrow roll down my face
 only because I've been in your place-
 A place of sadness, deep down in your
 heart-
 you feel you can't go on in this world
 with out your little girl- ~~she's dead~~
 But I'm here to say she's in a better
 place.
 A place without hate.

Sitting here tonight
 All night long I've been ~~just~~ quiet as
 as a mouse-
 only a few words have left my mouth-
 I'm just sitting here thinking about
 everything ~~that's~~ that's going on-
~~everything that's going on~~
~~replaying~~ moments of all the shit
 that's happened to me - good and
 bad ~~in my life~~ - It's still
 fucking with me-
~~it's still fucking with me~~
~~looking~~ looking back 5 years ago- the most
 saddest thing happened to me-
 and my brother was taken from me-
 and I didn't even get to say goodbye-
 on this saddest day of the year I
 set aside time to just be with you
 through my heart-

Curious
 woke up today with scars of sorrow-
 wondering whether or not I would see
 the streams of ~~tears~~ tears rolled down
 my cheeks ~~and~~
~~as I~~ As I ~~lay~~ in bed and start to think
 thinking of ~~my~~ I feel that's why-
 tears of ~~my~~ tears of ~~my~~
 This ~~is~~ I haven't figured out
 yet- I'm going down in pictures-
 and I'm learning to know all the
 answers to my questions-
 Something tells me I'm in over my head

Wow- looking back from old pictures remind me of how much I've changed, especially this year. I'm not the same person that you ~~met~~ met a year ago. Everything changed.

I was Independent, ~~ON~~ ON my own. I had my priorities and handled all my responsibilities. I had a steady job and always worked hard. I had my head on my shoulders, ~~see~~ and all my shit together. People were shocked and amazed when I told them I was on it. You came around at such on ~~such~~ around time, but she pieces just fit together one by one. It was as if he were meant to meet ~~my~~ and be together. We bonded quickly and closely- soon it went from just kicking it after I left the bar, to being side by side, until it was time for work. I was his side kick, his down ass bitch. I stayed high constantly- the days would just fly by. Where did all the time go?

9/16/14 for

OLIVIA

On 9/16/14, I was hanging at the house with
 with Matt Brown, Oliver Jordan and all of the
 friends. We were all in a room. There were
 no drugs but there was a small amount of
 weed and some other stuff. We and friends
 started getting close friends and I was starting
 to get into the "bitch" for some
 1000 from the L.A.S. Matt was from the
 stars and Woody. We and friends started
 doing "show" with this kid named Daniel
 who just started at the time. We were constantly
 doing half-brothers to the "show" and the
 at work and at the house. Friends and I
 had a blast together. During the day, I was
 in the super L.A.S. and at the house hanging out
 at Jacqui for the night. DJ Paper was
 we danced over everything. There was only
 one for a while, as the emergency get started
 at some place and go home with random
 guys sometimes. Then some other Feb 7th
 it was a Friday night, I brought the police (and
 from the house) and had some of the stuff
 in a box with no evidence. There
 is about ready to make the way to the
 stage at the house that night.

With so many people going on about
of our lives, it's hard to find that
one good heart that you can count on.
That's do you tell ~~it~~ a good friend
is actually a good friend or not?
It's hard, it's eliminating all the
wrong and right answers. But in the
end of the day when you have the
person who consistently s

Father I've sinned, over and over and
over again.
I've committed adultery - I only did
it to get her back for what she's done to me.
She did it first - I know the still and
right - two wrongs don't make a right.
Father I've sinned, over and over and
over again -

I've lied not only to you, but to
everyone else including myself.
What do I do - nobody believes a
word I say and I don't blame them.

Now its time for me to leave you
I'm not saying goodbye forever -
I'll only be gone for a short but
long lonely time -
I can't believe I'll be gone before too long
And you won't be ~~here~~ there for me to run to
No more late night talks face to face -
Now its just this empty vibrating image
and a plastic microphone.
You can't run to me anymore my friend
I'm more than just a phone call away -
You can't run your hands thru my hair
anymore my friend.

Over the years - and out of all
the different people I've met -
There's never been anyone ~~close~~
close to being who you are.

So long to all my pain
good night to my worst ache
good bye sorrow - I won't cry ~~anymore~~ ^{tomorrow}
I'm leaving tomorrow

How do you learn how to live again
after -

How do you learn how to love again
after you've been caused so much pain?
It's not easy opening up your heart to
some one who might turn around and leave you
After being hurt and left with your heart
in pieces how do you move on to tomorrow
how do you do it? Make all your problems
go away until another day.

9/16/14 ks

Tyler-

October 17th 2014

To the one I once called my brother. I miss you more than ever. It's been almost, actually, exactly a month. Since we've spoke to each other. I can't tell you how much it hurts me to see us fight like this. You're my best friend in the whole world. I can't live without you. I tell you everything - and you're the only one I can do that with. I've been lost and confused without someone to talk to. All I can say is that I'm sorry for what happened, I can't take it back cuz if I could I would. You're ~~my~~ family to me. What happened to us? We've been through so much shit over the years - and it hurts to see our friendship end over something so stupid and ~~small~~ little. Ok maybe not little becu'z now Emily can't go into management but that's not all my fault. Cuz ~~one~~ on - Stu was always late - ever since I've known her. It was going to happen sooner or later. You know its true.

9/16/14

- * How do you truly find the words to tell someone exactly how you feel.
- * Do you write a letter, leave a voice mail, or say absolutely nothing at all?
- * How do you speak of gratefulness and appreciation? and
- * How did I get so lucky to have a friend like you.
- * Someone who's there for me every time no matter what's going on in your life.
- * How did you get so much time to dedicate it all to me?
- * Why do you stand by my side and ~~was~~ even though I might be in the wrong?
- * How do you have so much love to give.
- * These are things I question about you.
- * I find the answers in my heart.
- * And this is how I tell you how much you actually mean to me.
- * Thank you from the bottom of my heart for standing by my side and being the greatest friend I've ever had.
- * I just know that I'll always be here for you - just as you've done for me.

9/16/14 ps

OLIVAS

You're always wondering what I'm after
 like to tell you, well I'll tell you about it
 on Sunday saying that you better be ready
 understand how much you really love an
 honest man. Well, he used to tell about
 our lives and our problems, as well as connect
 eye to eye the majority of times. You - Frank -
 -Baker - Frank - had that way to the life -
 the more we connect the more clear - all of
 them - I need you to be there for me. I'm
 in the middle of a mess and I need you
 must to support me and be there - but I
 don't help when you're busy. I know that
 stress upon me - for that and that's what
 me on my, well you know what I'm here
 for, you can do that and I'll be right there
 out of the time time - it seems like everything
 I need to talk to you - I've been on the
 phone that's all I can do in later. Well I think
 Remember Friday night at the show when
 you asked me to dance with you when I was
 was going home, well then you were leaving and
 and I made the connection to you that you
 are my inspiration to being, sorry - so that's

Look - I'm just going to jump right to
the point. I'm so tired of everything that's
gone on. You are so selfish and it's not fair.
You are the father of my child and

Wier-

My Bro - who's been going on about
 not want to really come around this past
 week, it's been so crazy about the really
 sorry about not calling you to let you know
 what's been going on. At all times with
 my mom and dad. She totally passed up all
 that I was in love with her, and I
 wanted to get her hell out of my life.
 Then there's some really weird stuff and
 more like last for work - I showed up at 7 am
 but had to turn in my car and was supposed to have
 a driver and be at work at 11:30 am well
 I didn't have my car - but not back -
 and Kelly was opening up - she already had
 a love when we got there right. So then
 Michael would be my wife on Friday night
 so I took us to Deep Ellum to see Michael
 show. You will be his total hell with
 drama - and I got off drunk & no Bitch to
 then finally got home with car at 3 am
 was up at 7 am then got left at the church
 with no ride to my car cuz it was at work.
 So Sarah has to come 20 mins away to
 get me and she was already late for work.

I have no idea where to begin or what to even say. You're all because of the 11. Some may think how you seem to always be around the bluest all that has caused. I just want to thank you for being my friend, you haven't been the greatest, but you're still my shortly ass friend. I don't want to make things from you. It's going to be so hard and different to adapt to what am I going to do with out my Mexican street wife? Well- what are those guys going to do without me? You have the blue do you? Your going to go crazy starts for shame! It's not appropriate for that. I'll be back - or you'll be back one way or another. We have been & we have old together.

I'm writing you this letter to tell you everything I've needed or wanted to say to you but couldn't or didn't have the time to. Plus it's kind of easier for me this way too! I can't bare to see you sad and upset. It kills me deep down. I look at you and I can't help but giggle and smile. You're all about you - you probably don't understand how much of an impact you have had on my life. I'm clean and sober becu' of you. Yeah - I've fucked up a few times - but I'm not perfect - nobody is - not even the main upstairs. I know it's faith that brought us together, trust me - I just know. I need you just as you need me. I will feel every bit of pain that you feel - I would take it all away just so that you wouldn't have to feel it. I would take all your sorrows and put them upon me. I would take all the tears you've cried and put them into the ocean so they could drown into the sea, and be forgotten. I only want you to be happy and I would do whatever it takes to get

Thomas

There are so many things I want to tell you you have had me so much about the hearing the apart when I first met you I was happy, excited, on cloud 9, but then it slowly but quietly started to take away when we first met - Jan 13th 2009 - I specifically loved you if you were with some one - And you said No, you stated that you had a daughter but weren't involved her. Read with her Face if you did - It wasn't until Aug-13th 2009 - 3 months pregnant until I remind you - that I found out you had been with him and told me many things that you cared for and wanted to be with me before I got pregnant. Thanks I fell for you from the very beginning esp since you went up to me it was amazing - everything about you made me want you more - you were or are so beautiful to me. Your kiss your touch the way you used to look at me made me melt. Now when you look at me its in hatred. I would give anything to have that back. Soz sorry things have turned out the way they have.

First off I'm going to start off by telling you that I love you. I know you think that I don't care or that I'm just never the daughter you wanted me to be, but I'm just me. It's been so hard for me lately, I've gone from living on my own and depending on myself for the past 2 yrs to hitting rock bottom and losing it all. I had to move back home with you, dad & Joe and let me tell you it kills me. Mom - I see you with all my heart - your my mother - But you and I both know that we constantly hurt each other and argue all the time. We've never had a close relationship - The other night when we were talking and you made the comment that you can't just ~~see~~ and drink a beer without people calling you a drunk - Well I know exactly what you mean - Because I can't go anywhere or hangout with anyone without being accused of doing dope. And the sad thing is that I've been clean but yet you still accuse me constantly and that just makes me want to use dope even more, I might as well be back on drugs.

 LAC: **PATY**

ARLINGTON
FILED
TARRANT COUNTY
THOMAS A. WILKIN
DISTRICT CLERK
11 MAR -8 AM 11:02

CAUSE NUMBER 231-493121-11

IN THE INTEREST OF

ASHER RION OLIVAS

A CHILD

§ IN THE _____ DISTRICT COURT
 § OF
 § TARRANT COUNTY, TEXAS

PETITION TO ESTABLISH THE PARENT-CHILD RELATIONSHIP

1. The ATTORNEY GENERAL, pursuant to Texas Family Code Chapter 231, files this pleading for which discovery is intended to be conducted under Level 2 of Rule 190, Texas Rules of Civil Procedure.

JURISDICTION

2. No Court has continuing jurisdiction of this suit or of the child the subject of this suit. There are no court-ordered conservatorships, guardianships, or other court-ordered relationships affecting the child the subject of this suit.

CHILDREN

3. The following child is the subject of this suit:

| Name | Sex | DOB | Birthplace |
|-------------------|-----|-----------|------------------------|
| ASHER RION OLIVAS | M | 2/25/2010 | ARLINGTON, TARRANT, TX |

No property, other than personal effects, is owned by any child the subject of this suit.

PERSONS ENTITLED TO NOTICE

4. The child resides with the *mother*, *MECHELLE D GANDY*, a resident of Texas. The ATTORNEY GENERAL requests the issuance and service of process on this person in accordance with the attached service information sheet.

5. The *father* of the child is *THOMAS J OLIVAS*, a resident of Texas. The ATTORNEY GENERAL requests the issuance and service of process on this person in accordance with the attached service information sheet.

DETERMINATION OF PARENTAGE

6. The Court should determine the parentage of any child who does not have an adjudicated, acknowledged, or presumed father. No presumption of paternity exists unless specifically alleged herein. If any party denies parentage, the Court should immediately order parentage testing. The Court should fix a reasonable fee for such testing if appropriate, order how such fee should be advanced, and tax the fee as court costs.

CONSERVATORSHIP

7. Because the parents of the child are separated, the Court should appoint appropriate conservators pursuant to Texas Family Code § 153.005.

NAME CHANGE

The Court should consider whether good cause exists to change the surname of the minor child to reflect parentage, if established, and enter an order concerning the name of the child pursuant to Texas Family Code Chapter 160.

SUPPORT

9. The Court should order appropriate current and retroactive child and medical support for the child, including temporary support pursuant to Texas Family Code §§ 160.624 and 105.001. In determining the amount of retroactive support the Court should consider the duty of parents to support their minor child, and all applicable provisions of the Texas Family Code. In addition, the Court should order medical support, including any employment-related or other group health insurance that is available to the parent.

WITHHOLDING FROM EARNINGS FOR SUPPORT

10. The Court should order all support withheld from disposable earnings pursuant to Texas Family Code § 158.006. The Court should order all payments of support processed pursuant to Texas Family Code Chapter 231 for distribution according to law. If appropriate, the Court should order *THOMAS J OLIVAS* to post a bond or security.

REQUEST FOR PRODUCTION OF DOCUMENTS

11. *THOMAS J OLIVAS* has in his possession documents that will show the nature and extent of his ability to pay child support. The ATTORNEY GENERAL, pursuant to Rule 196, Texas Rules of Civil Procedure, requests him to produce and permit the ATTORNEY GENERAL to inspect and copy the originals, or true copies, of the following documents in his possession, custody or control: (a) his IRS federal tax returns for the past two years with all schedules included with the returns and all W-2s and 1099s attached to such returns, (b) any and all W-2 statements, all 1099s, and all documents showing income received by Respondent from any source for the two tax years preceding the date of filing of this action, (c) all payroll stubs, vouchers, records of commissions and all other written records or evidence of income received by him within the last six months, (d) the most recent Social Security Administration Form SSA-7005, showing his income history, sent to him three months before his last birthday, (e) statements of accounts for all checking or saving accounts in which he has held an interest within the last six months, (f) all evidence (policies, premium schedules, records of premiums paid, etc.) of health insurance available at his place of employment that may provide coverage for dependent children, (g) copies of loan applications made within the last six months, (h) current statement of benefits and account balances for all retirement, pension, or profit-sharing plans in which the respondent has accrued or may accrue benefits, regardless if such benefits have vested, including but not limited to employer- or union-sponsored defined benefit or defined contribution plans and individual retirement accounts (IRAs), and (i) summary plan description of all retirement, pension, or profit-sharing plans in which the respondent has accrued or may accrue benefits, regardless if such benefits have vested. The ATTORNEY GENERAL requests production of the specified documents at:

The Office of the Attorney General
CHILD SUPPORT UNIT 0904E
1400 HILLCREST DR.
ARLINGTON, TX 76010

on or before 3:00 p.m. on the 50th day following the date of service of this request.

ATTORNEY FEES AND COSTS

12. The Court should order *THOMAS J OLIVAS* to pay reasonable attorney fees and all other costs of this proceeding.

PRAYER

The ATTORNEY GENERAL prays that the Court grant all relief requested herein. The ATTORNEY GENERAL prays for general relief.

Respectfully submitted,

Greg Abbott
Attorney General of Texas

BIRTH DATE: 7/20/1984 MARITAL STATUS: Unknown PHONE:

CASE NO. 1103616 Tarrant

The decedent is a 26-year-old White female who was apparently stabbed several times, then left inside a burning apartment. Arlington Fire Department pulled the decedent from the apartment and she was pronounced at the scene. Arlington Police Department is investigating this as a homicide, with companion case #1103617.

Arlington Police Detective Byron Stewart has requested trace evidence be completed on this case.

Photographs were taken of the scene.
Total # of photos: 90

DESCRIPTION OF BODY:

The body is viewed at the scene lying supine on a back board and covered with a sheet. The body is clothed in panties and a sock. There is no evidence of invasive medical intervention present. Externally, the remains are cool to the touch; rigor mortis is present, movable with applied force, and consistent with viewed position. Lividity is not blanchable and consistent with viewed position. There appear to be multiple stab type wounds to the chest and back of the decedent. Paper bags were placed on the decedent's hands at the scene.

MEDICAL HISTORY:

There is no known medical history for the decedent.

DETAILS OF INCIDENT:

This investigator responded to the scene, arriving at 0217 hours. I made contact with Detective Byron Stewart of the Arlington Police Department who stated on Sunday, March 20th, 2011 at 2211 hours, Arlington Fire Department responded to this location in reference to an apartment fire. Upon arrival, fire personnel observed this apartment in flames, forced entry through the front door, and found the decedent on floor just inside the door. Fire personnel pulled the decedent from the apartment onto the parking lot where paramedics attempted life savings measures without success. Paramedics observed what they believed to be multiple stab type wounds on the decedent's chest and back and she was pronounced at the scene. Detective Stewart requested the body be preserved for trace evidence. Detective Stewart stated they are currently looking for the decedent's baby, a white male named Asher Olivas, and the child's father, Thomas Olivas, H/M DOB 11/28/1982.

While at the scene, Arlington Fire Department Arson Investigator Stephen Lea located the charred remains of an infant in the back, southwest bedroom of the apartment, companion case #1103617. Lea stated the apartment fire was started in this room and the door to the bedroom was closed. The child was in a chard crib when found

Case No. 1103616 Tarrant County Medical Examiner's Office

and the body was badly burned. Detective Stewart requested the body of the baby also be preserved for trace evidence and the possibility of an accelerant on the body.

I observed several blood splatters on the wall as I entered the apartment, on the front entry way floor and kitchen floor. I bagged the decedent's hands and transport placed her in a white sheet, then inside a body bag. The infant was also wrapped inside a white sheet and also placed inside a body bag.

DETAILS OF INSTRUMENT CAUSING INJURY:

At the time of this report, no weapon has been discovered and or recovered.

ORGAN TISSUE DONOR:

There is no signed consent form to allow harvesting of organs or tissue.

FOLLOW UP INVESTIGATIONS REQUIRED

No follow-up investigation is needed at this time.

COMMENTS:

There was no property removed from the decedent at the morgue. Arlington PD Crimes Against Persons Sgt. Craig Fryer stated the decedents next of kin have been notified by police personnel but was not able to provide their names at this time.

AUTOPSY REPORT

Name: Mechelle Danielle Gandy
Approximate Age: 26 Years
Height: 67 Inches

CASE NO: 1103616
Sex: Female
Weight: 267.6 Pounds

I hereby certify that on the **21st** day of **March, 2011**, beginning at **1100** hours, I, **Shipping Bao, M.D.**, pursuant to Statute 49.25 of Texas Criminal Code, performed a complete autopsy on the body of **Mechelle Danielle Gandy** at the Tarrant County Medical Examiner's District Morgue in Fort Worth, Texas and upon investigation of the essential facts concerning the circumstances of the death and history of the case as known to me, I am of the opinion that the findings, cause and manner of death are as follows:

FINDINGS:

- I. Pronounced dead at the scene after found unresponsive in a burning apartment
- II. No medical history reported
- III. Body covered by soot with no thermal burn identified
- IV. No soot identified in larynx or trachea
- V. Postmortem chemical burns on neck and shoulders
- VI. Seven stab wounds identified on back, 4 of which penetrate posterior pleural cavities, with penetration/perforation of right middle lobe, right lower lobe, and left lower lobe of lungs
- VII. Four stab wounds identified on right chest and right anterior shoulder, 2 of which penetrate right anterior pleural cavity, with penetration of right ventricle of heart
- VIII. Three superficial incised wounds on left neck and forearm
- IX. A 1.5" x 1.0" contusion lateral to left eye
- X. Approximately 100 mL of blood in each pleural cavity
- XI. Collapse of all lobes of lungs
- XII. Cholelithiasis
- XIII. Trace evidence and right 4th anterior rib collected

A complete autopsy is carried out at the Tarrant County Medical Examiner's Morgue.

GROSS ANATOMIC DESCRIPTION

- I. **CLOTHING AND PERSONAL EFFECTS:** The body is presented to the Morgue secured in a white body bag and clad in:
1. White shorts
 2. A white left sock

II. **THERAPEUTIC INTERVENTION:** None

III. **EXTERNAL BODY DESCRIPTION:** The body is that of a normally developed adult white female appearing the stated age of 26 years with a body length of 67 inches and body weight of 267.6 pounds. The body presents medium build with average nutrition, normal hydration, and good preservation. Rigor mortis is complete, and lividity is well-developed on the posterior surfaces of the body and is fixed. The body is cold to touch post refrigeration and covered by soot. No thermal burn is identified. The head is covered by long, brown hair. The face is unremarkable. The injury is described below. There is average body hair of adult female pattern distribution. The eyes are closed with clear bulbar and palpebral conjunctivae. The irides are hazel with white sclerae. There are no cataracts or arcus present. Pupils are equal at 5 mm. The orbits appear normal. The nasal cavities contain soot with intact septum. The oral cavity presents natural teeth and contains soot. The ears are unremarkable with no hemorrhage in the external auditory canal. The neck is rigid due to postmortem changes, and there are no palpable masses. The chest is symmetrical with large breasts. The injuries are described below. The abdomen is moderately protuberant.

The upper and lower extremities are equal and symmetrical presenting cyanotic nail beds without clubbing or edema. The injuries are described below. There are no fractures, deformities, or amputations present. External genitalia are those of an adult female with intact vulva and vagina. The back reveals dependent lividity with contact pallor. The buttocks are atraumatic, and the anus is intact. The integument is of normal color.

1103616
Mechelle Danielle Gandy

TATTOOS:

1. Symbols are localized on back and legs
2. Letters are localized on left wrist

IV. EVIDENCE OF INJURY

1. Body covered by soot with no thermal burn identified
2. Postmortem chemical burns on neck and shoulders
3. Seven stab wounds identified on back, 4 of which penetrate posterior pleural cavities:
 - A. Right back, inverted "V" shape, 3/4" + 1/2" long, with penetration of right posterior 6th intercostal space and right middle lobe of lungs (1/2" long)
 - B. Left back, 1.25" long, with penetration of left posterior 8th intercostal space and perforation of left lower lobe of lungs (1/2" long)
 - C. Left back, 0.75" long, no penetration of pleural cavity
 - D. Left back, 1.75" long, with penetration of left posterior 11th intercostal space
 - E. Right back, 0.75" long, no penetration of pleural cavity
 - F. Right back, 1.25" long, with penetration of right posterior 8th intercostal space and right lower lobe of lungs (1/2" long)
 - G. Right back, 2.25" long, no penetration of pleural cavity
4. Four stab wounds identified on right chest and right anterior shoulder, 2 of which penetrate right anterior pleural cavity:
 - (H) A. Right anterior shoulder, 1.5" long, no penetration of pleural cavity
 - (J) B. Right chest, 1.5" long, with penetration of right anterior 4th rib and anterior right ventricle of heart (1/2" long)
 - (I) C. Right chest, 1.5" long, no penetration of pleural cavity
 - (K) D. Right chest, 2.25" long, with penetration of right anterior 5th intercostal space
5. Approximately 100 mL of blood in each pleural cavity
6. Collapse of all lobes of lungs
7. Three superficial incised wounds on left neck and forearm:
 - A. Left neck, 3.0" long
 - B. Left anterior forearm, 1.5" long
 - C. Left posterior forearm, 1.0" long
8. A 1.5" x 1.0" contusion lateral to left eye with a underlying 3.0" x 2.0" subgaleal hematoma
9. Trace evidence and right 4th anterior rib collected

V. INTERNAL EXAMINATION

1. INTEGUMENT: A Y-shaped thoracoabdominal incision is made and the organs are examined in-situ and eviscerated in the usual fashion. The subcutaneous fat is normally distributed, moist and bright yellow. The musculature of the chest and abdominal area is of normal color and texture.

2. SEROUS CAVITIES: The injuries of chest wall and pleural cavities are described above. The peritoneum is congested, smooth glistening and essentially dry, devoid of adhesions or effusion. There is no scoliosis, kyphosis, or lordosis present. The left and right diaphragms are in their normal location and appear grossly unremarkable. The pericardial sac is penetrated.

3. CARDIOVASCULAR SYSTEM: The heart weighs 342 grams and there is no chamber hypertrophy or dilatation. The injuries are described above. The left ventricular wall is 1.4 cm and the right 0.4 cm. The cardiac valves appear unremarkable. The coronary ostia are in the normal anatomical location leading into widely patent coronary arteries. Right dominant circulation is present. The endocardial surface is smooth without thrombi or inflammation. Sectioning of the myocardium presents no gross evidence of ischemic changes either of recent or remote origin. The aortic arch along with the great vessels appears grossly unremarkable.

4. PULMONARY SYSTEM: The neck presents an intact hyoid bone as well as thyroid and cricoid cartilages. The larynx is comprised of unremarkable vocal cords and folds, appearing widely patent without foreign material, and is lined by smooth, glistening membrane. The epiglottis is a characteristic plate-like structure without edema, trauma, or pathological lesions. Both the musculature and the vasculature of the anterior neck are unremarkable. The trachea and spine are in the midline, presenting no traumatic injuries or pathological lesions. No soot is identified in larynx or trachea.

The lungs together weigh 501 grams. The injuries are described above. There are no gross pneumonic lesions or abnormal masses identified. The tracheobronchial tree and pulmonary arterial system are intact and grossly unremarkable. The pleural surfaces are pink and smooth with focal mild anthracosis.

5. GASTROINTESTINAL SYSTEM: The esophagus is intact with normal gastroesophageal junctions and without erosions or varices. The stomach is also

1103616
Mechelle Danielle Gandy

normal without gastritis or ulcers, and contains food particles. Loops of small and large bowel appear grossly unremarkable. The appendix is unremarkable.

The liver weighs 1894 grams presenting a brown smooth glistening surface. Focal patchy yellow discoloration due to mild fatty metamorphosis is present. On sectioning the hepatic parenchyma is yellow-brown, homogeneous and congested. The gallbladder contains approximately 5 mL of greenish bile and two 1.0 cm diameter yellow stones. There is no cholecystitis. The biliary tree is patent. The pancreas weighs 178 grams and presents a lobulated yellow cut surface without acute or chronic pancreatitis.

6. GENITOURINARY SYSTEM: The left kidney weighs 123 grams, and the right 131 grams. On sectioning the cortex presents a normal thickness above the medulla. The renal columns of Bertin extend between the well-demarcated pyramids and appear unremarkable. The medulla presents normal renal pyramids with unremarkable papillae. The pelvis is of normal size and lined by gray glistening mucosa. There are no calculi. Renal arteries and veins are normal. The ureters are of normal caliber lying in their course within the retroperitoneum and draining into an unremarkable urinary bladder containing approximately 30 mL of urine.

External genitalia are those of an adult female with intact vulva and vagina. A medical device is localized in uterus. The cervix, fallopian tubes and ovaries are unremarkable.

7. HEMATOPOIETIC SYSTEM: The spleen weighs 222 grams, presenting a gray-pink intact capsule and a dark red parenchyma. There is no lymphadenopathy. The thymus gland is involuted.

8. ENDOCRINE SYSTEM: Thyroid gland is of normal size and shape, presenting two well-defined lobes with connecting isthmus and a beefy brown cut-surface. There are no goitrous changes or adenomas present. The adrenal glands are of normal size and shape and sectioning presents no gross pathological lesions.

9. CENTRAL NERVOUS SYSTEM: A scalp incision, craniotomy and evacuation of the brain are carried out in the usual fashion.

The injury of the scalp is described above. The calvarium is intact without bony abnormalities or fractures.

1103616

Mechelle Danielle Gandy

The brain weighs 1098 grams presenting moderate congestion of the leptomeninges. Overlying dura is intact and unremarkable. Cerebral hemispheres reveal a normal gyral pattern with moderate global edema. The brainstem and cerebelli are normal in appearance with no evidence of cerebellar tonsillar notching. The Circle of Willis is patent, presenting no evidence of thrombosis or berry aneurysm. On coronal sectioning of the brain the ventricular system is symmetrical and contains clear cerebrospinal fluid. There are no space occupying lesions present. Spinal cord is not examined.

SPECIMENS AND EVIDENCE COLLECTED

1. 30 mL of aortic blood, 30 mL of urine, and 5 mL of vitreous for further examination
2. Representative tissue sections in formalin for possible further examination
3. Blood cards
4. Representative photographs
5. Finger and palm prints
6. Right 4th anterior rib in formalin

Patient ID ME#1103616

Page 2 of 2

Detailed Findings:

| Analysis and Comments | Result | Units | Rpt. Limit | Specimen Source | Analysis By |
|-----------------------|--------|-------|------------|--------------------|-------------|
| Carboxyhemoglobin | 8.4 | % | 2.0 | 001 - Aortic Blood | SP |

Other than the above findings, examination of the specimen(s) submitted did not reveal any positive findings of toxicological significance by procedures outlined in the accompanying Analysis Summary.

Reference Comments:

1. Carboxyhemoglobin (COHb) - Aortic Blood:

Hemoglobin is a protein found in red blood cells that is responsible for the oxygen carrying capacity of blood. In normal conditions, hemoglobin receives oxygen via blood circulation through the lungs and delivers the oxygen to tissues and organs throughout the body. In situations where the inspired air is high in carbon monoxide concentration, the hemoglobin then binds the carbon monoxide in place of oxygen. This leads to a functional deficiency in oxygen delivery to the organs and tissues of the body.

Measurement of carbon monoxide hemoglobin saturation gives an indication of the carbon monoxide concentration in the inspired air and its possible sequelae. Normal endogenous carboxyhemoglobin levels are generally up to 4% in non-smokers and up to 8% in smokers (although it may be higher); toxic symptoms may be noted at levels >10%. Concentrations over 10% saturation have been reported to produce adverse effects, e.g., headache and nausea. Deaths from carbon monoxide, in the absence of resuscitative measures, generally have associated carboxyhemoglobin levels >40%. However, individuals with a compromised cardiovascular system are at a potentially greater risk of toxic effects at much lower carbon monoxide hemoglobin saturation values.

Chain of custody documentation has been maintained for the analyses performed by NMS Labs.

Unless alternate arrangements are made by you, the remainder of the submitted specimens will be discarded six (6) weeks from the date of this report; and generated data will be discarded five (5) years from the date the analyses were performed.

Missing Persons DNA Database Report

March 28, 2011

UNTCHI Case Number 1: 11-0547

UNTCHI Case Number 2: 11-0548

Submitting Agency:

Roger Metcalf, DDS
Tarrant County Medical Examiner
200 Feliks Gwozdz Place
Fort Worth, TX 76104

Agency Case Numbers: 1103616, 1103617

NCIC Number: Not provided

NamUs Number: Not provided

received 03/30/2011
(RW)

ITEMS RECEIVED

Received from Roger Metcalf, DDS on March 23, 2011:

11-0547.1 Family Reference Sample, **Mechelle Gandy**, representing the mother of a missing person, **Asher Olivas**

11-0548.1 Unidentified Remains Sample, blood card

TESTING PERFORMED

Human DNA extracted from item **11-0548.1** was analyzed for thirteen (13) genetic loci using the Applied Biosystems AmpF ℓ STR Profiler Plus ID and COfiler systems; human DNA extracted from item **11-0547.1** was analyzed for fifteen (15) genetic loci using the Applied Biosystems AmpF ℓ STR Identifier system.

The genetic data obtained from items **11-0548.1** and **11-0547.1** were uploaded into the *Unidentified Human (Remains)* and *Relatives of Missing Person* indices of the Combined DNA Index System (CODIS). An association between these samples was noted.

UNTCHI Case Numbers: 11-0547, 11-0548

Agency Case Numbers: 1103616, 1103617

Missing Persons DNA Database Report

RESULTS

The genetic data obtained from items **11-0548.1** and **11-0547.1** are consistent with the unidentified human remains belonging to a biological child of **Mechelle Gandy**.

These genetic data (autosomal STRs) are approximately **1.1 million times more likely** to be observed under the scenario that the unidentified remains originated from a biological child of **Mechelle Gandy** as opposed to the unidentified remains originating from an unrelated individual from one of the three major U.S. population groups (African American, Caucasian and Southwestern Hispanic).¹

The submission of additional first-order relatives could significantly increase the above statistical calculation. If additional statistical weight is needed, please contact the laboratory to determine which first-order relatives would provide the most informative comparisons.

Investigators are strongly encouraged to evaluate all associated case information in addition to the provided genetic results before declaring identity of the remains.

In the event that an identification is rendered by the appropriate legal authority, a copy of the death certificate must be submitted to the laboratory so that all genetic data obtained from the associated family reference sample(s) can be expunged from the CODIS database.

The remainder of the reference items and a portion of the submitted remains will be maintained by the UNT Center for Human Identification laboratory. Remaining items will be returned to the original submitting agency.

In the event that you have any questions or if we can be of further assistance, please feel free to contact the laboratory at 817-735-2143.

The above is the opinion of the undersigned, and this report shall not be reproduced without verbal or written permission.

AUTOPSY REPORT

Name: Mechelle D. Gandy
Approximate Age: 26 Years
Height: 67 Inches

CASE NO: 1103616
Sex: Female
Weight: 267.6 Pounds

I hereby certify that on the **21st** day of **March, 2011**, beginning at **1100** hours, I, **Shipping Bao, M.D.**, pursuant to Statute 49.25 of Texas Criminal Code, performed a complete autopsy on the body of **Mechelle D. Gandy** at the Tarrant County Medical Examiner's District Morgue in Fort Worth, Texas and upon investigation of the essential facts concerning the circumstances of the death and history of the case as known to me, I am of the opinion that the findings, cause and manner of death are as follows:

FINDINGS:

- I. Pronounced dead at the scene after found unresponsive in a burning apartment
- II. No medical history reported
- III. Body covered by soot with no thermal burn identified
- IV. No soot identified in larynx or trachea
- V. Postmortem chemical burns on neck and shoulders
- VI. Seven stab wounds identified on back, 4 of which penetrating posterior pleural cavities, with penetration/perforation of right middle lobe, right lower lobe, and left lower lobe of lungs
- VII. Four stab wounds identified on right chest and right anterior shoulder, 2 of which penetrating right anterior pleural cavity, with penetration of right ventricle of heart
- VIII. Three superficial incised wounds on left neck and forearm
- IX. A 1.5" x 1.0" contusion lateral to left eye
- X. Approximately 100 ml of blood in each pleural cavity
- XI. Collapse of all lobes of lungs
- XII. Cholelithiasis
- XIII. Trace evidence and right 4th anterior rib collected

Detailed Findings:

| Analysis and Comments | Result | Units | Rpt. Limit | Specimen Source | Analysis By |
|-----------------------|--------|-------|------------|--------------------|-------------|
| Carboxyhemoglobin | 8.4 | % | 2.0 | 001 - Aortic Blood | SP |

Other than the above findings, examination of the specimen(s) submitted did not reveal any positive findings of toxicological significance by procedures outlined in the accompanying Analysis Summary.

Reference Comments:

1. Carboxyhemoglobin (COHb) - Aortic Blood:

Hemoglobin is a protein found in red blood cells that is responsible for the oxygen carrying capacity of blood. In normal conditions, hemoglobin receives oxygen via blood circulation through the lungs and delivers the oxygen to tissues and organs throughout the body. In situations where the inspired air is high in carbon monoxide concentration, the hemoglobin then binds the carbon monoxide in place of oxygen. This leads to a functional deficiency in oxygen delivery to the organs and tissues of the body.

Measurement of carbon monoxide hemoglobin saturation gives an indication of the carbon monoxide concentration in the inspired air and its possible sequelae. Normal endogenous carboxyhemoglobin levels are generally up to 4% in non-smokers and up to 8% in smokers (although it may be higher); toxic symptoms may be noted at levels >10%. Concentrations over 10% saturation have been reported to produce adverse effects, e.g., headache and nausea. Deaths from carbon monoxide, in the absence of resuscitative measures, generally have associated carboxyhemoglobin levels >40%. However, individuals with a compromised cardiovascular system are at a potentially greater risk of toxic effects at much lower carbon monoxide hemoglobin saturation values.

Chain of custody documentation has been maintained for the analyses performed by NMS Labs.

Unless alternate arrangements are made by you, the remainder of the submitted specimens will be discarded six (6) weeks from the date of this report; and generated data will be discarded five (5) years from the date the analyses were performed.

AUTOPSY REPORT

Name: Asher Rion Olivas
Approximate Age: 1 Year
Height: 27 Inches

CASE NO: 1103617
Sex: Male
Weight: 19.6 Pounds

I hereby certify that on the **22nd** day of **March, 2011**, beginning at **0900** hours, I, **Shipping Bao, M.D.**, pursuant to Statute 49.25 of Texas Criminal Code, performed a complete autopsy on the body of **Asher Rion Olivas** at the Tarrant County Medical Examiner's District Morgue in Fort Worth, Texas and upon investigation of the essential facts concerning the circumstances of the death and history of the case as known to me, I am of the opinion that the findings, cause and manner of death are as follows:

FINDINGS:

- I. Found dead in a burning apartment
- II. No medical history reported
- III. A severely burned child's body covered by soot
- IV. Right skull burned away with exposure of brain tissues
- V. Right forearm and lower leg burned away
- VI. Right lower chest and right abdominal walls burned away with exposure of organs
- VII. No blunt force or sharp force trauma could be identified on external examination
- VIII. No blunt force or sharp force injuries identified on internal organs
- IX. No soot identified in larynx or trachea
- X. Negative on postmortem toxicology study including carbon monoxide

Page 2 of 5

1103617
Asher Rion Olivas

CAUSE OF DEATH: THERMAL BURNS

MANNER OF DEATH: HOMICIDE

COMMENT: Due to severe burns to head and face, suffocation or head trauma could not be ruled out.

A complete autopsy is carried out at the Tarrant County Medical Examiner's Morgue.

GROSS ANATOMIC DESCRIPTION

I. CLOTHING AND PERSONAL EFFECTS: The body is presented to the Morgue wrapped in a white sheet, secured in a white body bag and clad in:

1. A burned blue shirt
2. A burned diaper

II. THERAPEUTIC INTERVENTION: None

III. EXTERNAL BODY DESCRIPTION: The body is that of a severely burned child covered by soot. The right skull is burned away with exposure of brain tissues. The right forearm and lower leg are burned away. The right lower chest and right abdominal walls are burned away with exposure of organs. No blunt force or sharp force trauma could be identified on external examination. External genitalia could not be identified.

IV. INTERNAL EXAMINATION

No blunt force or sharp force injuries are identified on internal organs.

1. INTEGUMENT: A Y-shaped thoracoabdominal incision is made and the organs are examined in-situ and eviscerated in the usual fashion.

2. SEROUS CAVITIES: No rib, sternal, or clavicular fractures are identified.

3. CARDIOVASCULAR SYSTEM: The heart weighs 59 grams and there is no chamber hypertrophy or dilatation. The cardiac valves appear unremarkable. The coronary ostia are in the normal anatomical location leading into widely patent coronary arteries. Right dominant circulation is present. The endocardial surface is smooth without thrombi or inflammation. Sectioning of the myocardium presents no gross evidence of ischemic changes either of recent or remote origin. The aortic arch along with the great vessels appears grossly unremarkable.

4. PULMONARY SYSTEM: No soot is identified in larynx or trachea. The lungs appear hyperinflated and together weigh 284 grams. Both the lungs appear severely edematous. There are no gross pneumonic lesions or abnormal masses identified. The tracheobronchial tree and pulmonary arterial system are intact and grossly unremarkable.

5. GASTROINTESTINAL SYSTEM: The esophagus is intact with normal gastroesophageal junctions and without erosions or varices. The stomach is also normal without gastritis or ulcers, and contains food particles. Loops of small and large bowel appear grossly unremarkable. The appendix is unremarkable.

The liver weighs 407 grams presenting a brown surface. On sectioning the hepatic parenchyma is yellow-brown, homogeneous and congested. The gallbladder is unremarkable containing no greenish bile. There is no cholecystitis or lithiasis. The biliary tree is patent. The pancreas weighs 12 grams and presents a lobulated yellow cut surface without acute or chronic pancreatitis.

6. GENITOURINARY SYSTEM: The left kidney weighs 24 grams, and the right 31 grams. On sectioning the cortex presents a normal thickness above the medulla. The renal columns of Bertin extend between the well-demarcated pyramids and appear unremarkable. The medulla presents normal renal pyramids with unremarkable papillae. The pelvis is of normal size and lined by gray glistening mucosa. There are no calculi. Renal arteries and veins are normal. The ureters are of normal caliber lying in their course within the retroperitoneum and draining into an unremarkable urinary bladder containing approximately 2.0 mL of urine.

External genitalia could not be identified. The prostate is unremarkable.

7. HEMATOPOIETIC SYSTEM: The spleen weighs 74 grams, presenting a gray-pink intact capsule and a dark red parenchyma. There is no lymphadenopathy. The thymus gland is unremarkable.

8. ENDOCRINE SYSTEM: Thyroid gland is of normal size and shape, presenting two well-defined lobes with connecting isthmus and a beefy brown cut-surface. There are no goitrous changes or adenomas present. The adrenal glands are of normal size and shape and sectioning presents no gross pathological lesions.

9. CENTRAL NERVOUS SYSTEM: A scalp incision, craniotomy and evacuation of the brain are carried out in the usual fashion.

Page 5 of 5

1103617
Asher Rion Olivas

The brain weighs 761 grams and is fragmented on examination. No blunt force or sharp force injuries could be identified. Spinal cord is not examined.

SPECIMENS AND EVIDENCE COLLECTED

1. 20 mL of aortic blood and 2 mL of urine for further examination
2. Representative tissue sections in formalin for possible further examination
3. Blood cards
4. Representative photographs
5. 2 X-ray films

CASE NO. 1103617 Tarrant

The decedent is an infant who was severely burned in an apartment fire while in a crib. Arlington Police are investigating this case as a homicide with companion case #1103616.

Arlington Police Detective Byron Stewart has requested trace evidence be completed on this case.

Photographs were taken of the scene.

Total # of photos: 42

Tentative Identification:

Asher Olivas, H/M DOB 02/25/2010

DESCRIPTION OF BODY:

The body is viewed at scene in the charred remains of what was once a crib. The body is of an infant, and is burned beyond recognition.

MEDICAL HISTORY:

There is no known medical history for the decedent.

DETAILS OF INCIDENT:

This investigator responded to the scene, arriving at 0217 hours. I made contact with Detective Byron Stewart of the Arlington Police Department who stated on Sunday, March 20th, 2011 at 2211 hours, Arlington Fire Department responded to this location in reference to an apartment fire. Upon arrival, fire personnel observed this apartment in flames, forced entry through the front door, and found the Mechelle Gandy on the floor just inside the door. Fire personnel pulled Mechelle from the apartment and onto the parking lot where paramedics attempted life savings measures without success. Paramedics observed what they believed to be multiple stab-type wounds on Mechelle's chest and back and she was pronounced at the scene, (companion case #1103616). Detective Stewart requested Mechelle's body be preserved for trace evidence. Detective Stewart stated they are currently looking for the decedent, a white Hispanic named Asher Olivas, and the child's father, Thomas Olivas, H/M DOB 11/28/1982.

Case No. 1103617 Tarrant County Medical Examiner's Office

While at the scene, Arlington Arson Investigator Stephen Lea located the charred remains of the decedent in the back, southwest bedroom of the apartment. Lea stated the apartment fire was started in this room and the door to the bedroom was closed. The decedent was in a charred crib when found and the body was badly burned. Detective Stewart requested the body of the decedent also be preserved for trace evidence and the possibility of an accelerant used on the body.

I observed several blood splatters on the wall as I entered the apartment, on the front entry way floor and kitchen floor. The decedent was wrapped inside a white sheet and placed inside a body bag.

UNIDENTIFIED BODY:

The following information may lead to the positive identification of the decedent.

Potential Name: Asher Olivas H/M DOB 02/25/2010

Address: 2216 Presidents Corner #601, Arlington, TX 76011

ORGAN TISSUE DONOR:

There is no signed consent form to allow harvesting of organs or tissue.

FOLLOW UP INVESTIGATIONS REQUIRED

Identify the decedent and notify the next of kin.

COMMENTS:

There was no property removed from the decedent at the morgue.

James K Greenwell

Case No. 1103617 Tarrant County Medical Examiner's Office

Addendum added 3/22/2011 by Roger Metcalf

RM DDS collected an additional FTA "blood card" from this decedent for DNA analysis. Family reference DNA sample was obtained from the adult female decedent Mechelle Gandy in companion case #1103616 by RM DDS.

Addendum added 3/23/2011 by Roger Metcalf

Decedent's FTA blood card was hand-delivered to UNT HSC DNA Lab by RM DDS for analysis and comparison to family reference sample from companion case #1103616.

Addendum added 3/29/2011 by Roger Metcalf

DNA report received via fax from UNT HSC DNA Lab (UNT #11-0547, 11-0548). Decedent identified via DNA analysis and comparison as Asher Rion Olivas, 02/25/2010 (spelling of name and dob confirmed by step-grandfather Lester Hicks). N-o-k Lester Hicks, 817-375-8701, notified of positive ID.

CASE NO. 1103617 Tarrant

The decedent is an infant who was severely burned in an apartment fire while in a crib. Arlington Police are investigating this case as a homicide with companion case #1103616.

Arlington Police Detective Byron Stewart has requested trace evidence be completed on this case.

Photographs were taken of the scene.

Total # of photos: 42

Tentative Identification:

Asher Olivas, H/M DOB 02/25/2010

DESCRIPTION OF BODY:

The body is viewed at scene in the charred remains of what was once a crib. The body is of an infant, and is burned beyond recognition.

MEDICAL HISTORY:

There is no known medical history for the decedent.

DETAILS OF INCIDENT:

This investigator responded to the scene, arriving at 0217 hours. I made contact with Detective Byron Stewart of the Arlington Police Department who stated on Sunday, March 20th, 2011 at 2211 hours, Arlington Fire Department responded to this location in reference to an apartment fire. Upon arrival, fire personnel observed this apartment in flames, forced entry through the front door, and found the Mechelle Gandy on floor just inside the door. Fire personnel pulled Mechelle from the apartment onto the parking lot where paramedics attempted life savings measures without success. Paramedics observed what they believed to be multiple stab type wounds on Mechelle's chest and back and she was pronounced at the scene, (companion case #1103616). Detective Stewart requested Mechelle's body be preserved for trace evidence. Detective Stewart stated they are currently looking for the decedent, a white Hispanic named Asher Olivas, and the child's father, Thomas Olivas, H/M DOB 11/28/1982.

While at the scene, Arlington Arson Investigator Stephen Lea located the charred remains of the decedent in the back, southwest bedroom of the apartment. Lea stated the apartment fire was started in this room and the door to the bedroom was closed. The decedent was in a charred crib when found and the body was badly burned. Detective Stewart requested the body of the decedent also be preserved for trace evidence and the possibility of an accelerant used on the body.

I observed several blood splatters on the wall as I entered the apartment, on the front entry way floor and kitchen floor. The decedent was wrapped inside a white sheet and placed inside a body bag.

UNIDENTIFIED BODY:

The following information may lead to the positive identification of the decedent.

Potential Name: Asher Olivas H/M DOB 02/25/2010

Address: 2216 Presidents Corner #601, Arlington, TX 76011

ORGAN TISSUE DONOR:

There is no signed consent form to allow harvesting of organs or tissue.

FOLLOW UP INVESTIGATIONS REQUIRED

Identify the decedent and notify the next of kin.

COMMENTS:

There was no property removed from the decedent at the morgue.

AUTOPSY REPORT

Name: Asher Rion Olivas
Approximate Age: 1 Year
Height: 27 Inches

CASE NO: 1103617
Sex: Male
Weight: 19.6 Pounds

I hereby certify that on the 22nd day of **March, 2011**, beginning at **0900** hours, I, **Shipping Bao, M.D.**, pursuant to Statute 49.25 of Texas Criminal Code, performed a complete autopsy on the body of **Asher Rion Olivas** at the Tarrant County Medical Examiner's District Morgue in Fort Worth, Texas and upon investigation of the essential facts concerning the circumstances of the death and history of the case as known to me, I am of the opinion that the findings, cause and manner of death are as follows:

FINDINGS:

- I. Found dead in a burning apartment
- II. No medical history reported
- III. A severely burned child's body covered by soot
- IV. Right skull burned away with exposure of brain tissues
- V. Right forearm and lower leg burned away
- VI. Right lower chest and right abdominal walls burned away with exposure of organs
- VII. No blunt force or sharp force trauma could be identified on external examination
- VIII. No blunt force or sharp force injuries identified on internal organs
- IX. No soot identified in larynx or trachea
- X. Negative on postmortem toxicology study including carbon monoxide

Page 2 of 5

1103617

Asher Rion Olivas

CAUSE OF DEATH: THERMAL BURNS

MANNER OF DEATH: HOMICIDE

COMMENT: Due to severe burns to head and face, suffocation or head trauma could not be ruled out.

A complete autopsy is carried out at the Tarrant County Medical Examiner's Morgue.

GROSS ANATOMIC DESCRIPTION

I. CLOTHING AND PERSONAL EFFECTS: The body is presented to the Morgue wrapped in a white sheet, secured in a white body bag and clad in:

1. A burned blue shirt
2. A burned diaper

II. THERAPEUTIC INTERVENTION: None

III. EXTERNAL BODY DESCRIPTION: The body is that of a severely burned child covered by soot. The right skull is burned away with exposure of brain tissues. The right forearm and lower leg are burned away. The right lower chest and right abdominal walls are burned away with exposure of organs. No blunt force or sharp force trauma could be identified on external examination. External genitalia could not be identified.

IV. INTERNAL EXAMINATION

No blunt force or sharp force injuries are identified on internal organs.

1. INTEGUMENT: A Y-shaped thoracoabdominal incision is made and the organs are examined in-situ and eviscerated in the usual fashion.

2. SEROUS CAVITIES: No rib, sternal, or clavicular fractures are identified.

3. CARDIOVASCULAR SYSTEM: The heart weighs 59 grams and there is no chamber hypertrophy or dilatation. The cardiac valves appear unremarkable. The coronary ostia are in the normal anatomical location leading into widely patent coronary arteries. Right dominant circulation is present. The endocardial surface is smooth without thrombi or inflammation. Sectioning of the myocardium presents no gross evidence of ischemic changes either of recent or remote origin. The aortic arch along with the great vessels appears grossly unremarkable.

1103617
Asher Rion Olivas

4. PULMONARY SYSTEM: No soot is identified in larynx or trachea. The lungs appear hyperinflated and together weigh 284 grams. Both the lungs appear severely edematous. There are no gross pneumonic lesions or abnormal masses identified. The tracheobronchial tree and pulmonary arterial system are intact and grossly unremarkable.

5. GASTROINTESTINAL SYSTEM: The esophagus is intact with normal gastroesophageal junctions and without erosions or varices. The stomach is also normal without gastritis or ulcers, and contains food particles. Loops of small and large bowel appear grossly unremarkable. The appendix is unremarkable.

The liver weighs 407 grams presenting a brown surface. On sectioning the hepatic parenchyma is yellow-brown, homogeneous and congested. The gallbladder is unremarkable containing no greenish bile. There is no cholecystitis or lithiasis. The biliary tree is patent. The pancreas weighs 12 grams and presents a lobulated yellow cut surface without acute or chronic pancreatitis.

6. GENITOURINARY SYSTEM: The left kidney weighs 24 grams, and the right 31 grams. On sectioning the cortex presents a normal thickness above the medulla. The renal columns of Bertin extend between the well-demarcated pyramids and appear unremarkable. The medulla presents normal renal pyramids with unremarkable papillae. The pelvis is of normal size and lined by gray glistening mucosa. There are no calculi. Renal arteries and veins are normal. The ureters are of normal caliber lying in their course within the retroperitoneum and draining into an unremarkable urinary bladder containing approximately 2.0 mL of urine.

External genitalia could not be identified. The prostate is unremarkable.

7. HEMATOPOIETIC SYSTEM: The spleen weighs 74 grams, presenting a gray-pink intact capsule and a dark red parenchyma. There is no lymphadenopathy. The thymus gland is unremarkable.

8. ENDOCRINE SYSTEM: Thyroid gland is of normal size and shape, presenting two well-defined lobes with connecting isthmus and a beefy brown cut-surface. There are no goitrous changes or adenomas present. The adrenal glands are of normal size and shape and sectioning presents no gross pathological lesions.

9. CENTRAL NERVOUS SYSTEM: A scalp incision, craniotomy and evacuation of the brain are carried out in the usual fashion.

Page 5 of 5

1103617
Asher Rion Olivas

The brain weighs 761 grams and is fragmented on examination. No blunt force or sharp force injuries could be identified. Spinal cord is not examined.

SPECIMENS AND EVIDENCE COLLECTED

1. 20 mL of aortic blood and 2 mL of urine for further examination
2. Representative tissue sections in formalin for possible further examination
3. Blood cards
4. Representative photographs
5. 2 X-ray films

Page 2 of 3

Detailed Findings:

| Analysis and Comments | Result | Units | Rpt. Limit | Specimen Source | Analysis By |
|--|----------|--------|------------|--------------------|-------------|
| Carboxyhemoglobin | 12 | % | 2.0 | 001 - Aortic Blood | SP |
| <p>There was a discrepancy between the results of the two carboxyhemoglobin analyses. The analysis performed by spectrophotometry (SP) on specimen-001 yielded a result of 12% saturation; however, the analysis by microdiffusion (MD) on both specimens-001 and -002 indicated that no carboxyhemoglobin was present in the specimen. The Carboxyhemoglobin result by SP may have been falsely elevated due to the presence of Methemoglobin and Sulfhemoglobin and/or the presence of an unknown interfering substance; it was noted that the blood appeared to be severely decomposed.</p> <p>A direct analysis of carbon monoxide in the specimen by gas chromatography/mass spectrometry (GC/MS) that uses the measured specimen iron concentration (i.e., Test Code 1006B - Carbon Monoxide/Iron Ratio) may help to clarify the issue. If this is desired, please contact NMS Labs for additional details concerning this test.</p> | | | | | |
| Cyanide | 0.17 | mcg/mL | 0.10 | 001 - Aortic Blood | SP |
| Carboxyhemoglobin | See Note | % | 2.0 | 002 - Blood | MD |

Microdiffusion (MD) result is not congruent with the Spectrophotometry (SP) result.

Other than the above findings, examination of the specimen(s) submitted did not reveal any positive findings of toxicological significance by procedures outlined in the accompanying Analysis Summary.

Reference Comments:

1. Carboxyhemoglobin (COHb) - Blood, Aortic Blood:

Hemoglobin is a protein found in red blood cells that is responsible for the oxygen carrying capacity of blood. In normal conditions, hemoglobin receives oxygen via blood circulation through the lungs and delivers the oxygen to tissues and organs throughout the body. In situations where the inspired air is high in carbon monoxide concentration, the hemoglobin then binds the carbon monoxide in place of oxygen. This leads to a functional deficiency in oxygen delivery to the organs and tissues of the body.

Measurement of carbon monoxide hemoglobin saturation gives an indication of the carbon monoxide concentration in the inspired air and its possible sequelae. Normal endogenous carboxyhemoglobin levels are generally up to 4% in non-smokers and up to 8% in smokers (although it may be higher); toxic symptoms may be noted at levels >10%. Concentrations over 10% saturation have been reported to produce adverse effects, e.g., headache and nausea. Deaths from carbon monoxide, in the absence of resuscitative measures, generally have associated carboxyhemoglobin levels >40%. However, individuals with a compromised cardiovascular system are at a potentially greater risk of toxic effects at much lower carbon monoxide hemoglobin saturation values.

2. Cyanide - Aortic Blood:

Cyanide is a potent, rapidly acting lethal poison. Common sources include industrial manufacturing by-products, plants, fruit pits, chemicals and combustion products of certain plastics. Because of the latter, cyanide may play a role in the hypoxic events from fires. Its toxic effects are exerted via inhibition of aerobic metabolism, i.e., an inability to effectively use oxygen.

Endogenous plasma cyanide concentrations for non-smokers are reported to approximate 0.004 mcg/mL. In smokers, plasma levels may increase to 0.006 mcg/mL. The values in whole blood are somewhat higher; non-smokers, 0.02 mcg/mL; smokers, 0.04 mcg/mL. Individuals on nitroprusside therapy for high blood pressure may also have elevated levels of cyanide (0.05 - 0.5 mcg/mL).

CONFIDENTIAL

Workorder 11314815
Chain 11062972
Patient ID ME#1103617

Page 3 of 3

Reference Comments:

Blood concentrations of cyanide can increase or decrease during storage depending on the length of time, the temperature and the presence of cyanogenic bacteria (bacteria that form cyanide as a by-product of metabolism).

In general, individuals with blood cyanide levels lower than 0.2 mcg/mL are asymptomatic; between 0.5 and 1.0 mcg/mL, signs of toxicity may be noted, e.g., flushing and tachycardia; and over 1.0 mcg/mL, stupor, agitation, coma and death may occur. Concentrations found in fire victims ranged from 0.17 - 2.2 mcg/mL. Average concentrations reported in fatal cases were 7 and 12.4 mcg/mL for inhalation and oral routes of administration, respectively.

Chain of custody documentation has been maintained for the analyses performed by NMS Labs.

Unless alternate arrangements are made by you, the remainder of the submitted specimens will be discarded six (6) weeks from the date of this report; and generated data will be discarded five (5) years from the date the analyses were performed.

Missing Persons DNA Database Report

March 28, 2011

UNTCHI Case Number 1: 11-0547

UNTCHI Case Number 2: 11-0548

Submitting Agency:

Roger Metcalf, DDS
Tarrant County Medical Examiner
200 Feliks Gwozdz Place
Fort Worth, TX 76104

Agency Case Numbers: 1103616, 1103617

NCIC Number: Not provided

NamUs Number: Not provided

ITEMS RECEIVED

Received from Roger Metcalf, DDS on March 23, 2011:

- 11-0547.1** Family Reference Sample, **Mechelle Gandy**, representing the mother of a missing person, **Asher Olivas**
- 11-0548.1** Unidentified Remains Sample, blood card

TESTING PERFORMED

Human DNA extracted from item **11-0548.1** was analyzed for thirteen (13) genetic loci using the Applied Biosystems AmpFlSTR Profiler Plus ID and COfiler systems; human DNA extracted from item **11-0547.1** was analyzed for fifteen (15) genetic loci using the Applied Biosystems AmpFlSTR Identifier system.

The genetic data obtained from items **11-0548.1** and **11-0547.1** were uploaded into the *Unidentified Human (Remains)* and *Relatives of Missing Person* indices of the Combined DNA Index System (CODIS). An association between these samples was noted.

Agency Case Numbers: 1103616, 1103617

Missing Persons DNA Database Report

RESULTS

The genetic data obtained from items **11-0548.1** and **11-0547.1** are consistent with the unidentified human remains belonging to a biological child of **Mechelle Gandy**.

These genetic data (autosomal STRs) are approximately **1.1 million times more likely** to be observed under the scenario that the unidentified remains originated from a biological child of **Mechelle Gandy** as opposed to the unidentified remains originating from an unrelated individual from one of the three major U.S. population groups (African American, Caucasian and Southwestern Hispanic).¹

The submission of additional first-order relatives could significantly increase the above statistical calculation. If additional statistical weight is needed, please contact the laboratory to determine which first-order relatives would provide the most informative comparisons.

Investigators are strongly encouraged to evaluate all associated case information in addition to the provided genetic results before declaring identity of the remains.

In the event that an identification is rendered by the appropriate legal authority, a copy of the death certificate must be submitted to the laboratory so that all genetic data obtained from the associated family reference sample(s) can be expunged from the CODIS database.

The remainder of the reference items and a portion of the submitted remains will be maintained by the UNT Center for Human Identification laboratory. Remaining items will be returned to the original submitting agency.

In the event that you have any questions or if we can be of further assistance, please feel free to contact the laboratory at 817-735-2143.

The above is the opinion of the undersigned, and this report shall not be reproduced without verbal or written permission.

¹ Allele frequency data obtained from Budowle et.al, J Forensic Sci 1999; 44(6):1277-1286.

BUSINESS RECORDS AFFIDAVIT

Before me, the undersigned authority, personally appeared James M. Doré who, being by me duly sworn, deposed as follows:

My name is James M. Doré and I am of sound mind, capable of making this affidavit, and personally acquainted with the facts herein stated:

I am the Custodian of the Records of Incredible Technologies, Inc. Attached hereto are 1 pages of records from Incredible Technologies, Inc. These 1 pages of records are kept by Incredible Technologies, Inc. in the regular course of business, and it was in the regular course of business of Incredible Technologies, Inc. that an employee or representative of Incredible Technologies, Inc. with knowledge of the act, event, condition, opinion, or diagnosis, recorded to make the record or to transmit information thereof to be included in such record; further the record was made at or near the time or reasonably soon thereafter. The records attached hereto are the original or exact duplicates of the originals.

PLAYER ID INFORMATION:

PERSONA:49BDA81F
 LIFE_ID: 98633
 NICKNAME: ONEHOLEWONDR I.
 EMAIL: wwtodo101@yahoo.com
 legal_name: THOMAS OLIVAS
 ADDRESS: OLD: 214 BROOKSIDE, Grapevine, TX, 76051
 ADDRESS: NEW: 1603C Oak Creek Ln, Bedford, TX, 76022

NOTES ON METHODOLOGY

This data was produced by the following means:

- 1) IT's permanent player database was queried regarding players having the legal name "Thomas Olivas" and/or the nickname "One Whole Wonder."
- 2) The player ID information found above was returned by the database query.
- 3) The player ID information was used to query IT's game play database for all plays by the Persona identified in step 2 between March 18, 2011 and March 22, 2011. The dates set forth in the Subpoena Duces Tecum were extended by one day in either direction to allow for games which started or ended during the Subpoena period but which ended or began outside of it.
- 4) The raw data produced by the database queries in Steps 2 and 3 was output to an Excel spreadsheet.
- 5) The Excel spreadsheet (this document) was formatted for clarity and these notes were added. NO DATA PRESENT IN IT'S DATABASE IN RESPONSE TO THE QUERIES DESCRIBED WAS REMOVED OR MODIFIED AND NO DATA WAS ADDED OTHER THAN THESE NOTES.

All databases queried for purposes of this response are maintained by IT in the regular course of its business and all data contained therein is recorded subsequent to and in the regular course of IT's business, and such data is collected at or near the time of the actual events documented therein. The data set forth above is a physical representation of the electronic data stored by IT in the regular course of its business, which is not usually recorded in physical form other than as electronic information, and such constitutes as exact a duplicate of such information as may reasonably be created.
